

Summary

Full-stack software engineer with experience in web development, database design, and cloud infrastructure. Passionate about building scalable applications and solving complex technical challenges through clean, efficient code.

Technical Skills

- **Languages & Frameworks:** JavaScript (React, Node.js), Python (Django, Flask), Java (Spring), TypeScript
- **Databases:** PostgreSQL, MongoDB, Redis, MySQL
- **Infrastructure & Tools:** AWS (EC2, S3, RDS), Docker, Kubernetes, Git, CI/CD, Jenkins, REST APIs, GraphQL
- **Other Technologies:** HTML/CSS, Linux, Nginx, Terraform, Jest, Selenium

Experience

Software Engineer | TechCompany Inc.

San Francisco, CA | June 2021 — Present

- Develop and maintain microservices architecture serving 100K+ daily active users using Node.js and PostgreSQL.
- Build responsive web applications with React and TypeScript, improving user experience and reducing load times by 40%.
- Design and implement CI/CD pipelines using Jenkins and Docker, reducing deployment time from hours to minutes.
- Collaborate with cross-functional teams to deliver features on time and mentor junior developers on best practices.
- Optimize database queries and implement caching strategies, resulting in 25% improvement in application performance.

Full-Stack Developer | StartupCo

Austin, TX | March 2019 — May 2021

- Built customer-facing web applications using Python Django framework and React frontend, supporting business growth from 10K to 50K users.
- Implemented RESTful APIs and integrated third-party services including payment processing and email marketing platforms.
- Managed AWS infrastructure including EC2 instances, RDS databases, and S3 storage for scalable application deployment.
- Participated in agile development processes and code reviews, maintaining high code quality standards.

Junior Developer | Digital Solutions Agency

Remote | August 2017 — February 2019

- Developed custom WordPress themes and plugins for client websites, ensuring mobile responsiveness and SEO optimization.

- Created database-driven web applications using PHP and MySQL for small to medium-sized businesses.
- Collaborated with designers and project managers to deliver projects on schedule and within budget.

Education

- State University | BS Computer Science *College Town, ST*
- Community College | Associate Degree Information Technology *Hometown, ST*
